

Gentlemen,

7 July, 2015

NEW NATION OF HAMON PROPOSAL

I am writing to you with this proposal, which is self explanatory. It is purposely brief to ensure the Hamon Nation concept is not lost in too much detail.

I look forward to six Founding Country Heads of State meeting in Hamon to decide on this proposal, and possibly using the occasion to establish day one in Hamon history.

Best regards,

Mr Robert Arthur Beatty BE (Minerals) FausIMM(CP)

# Welcome to the proposed nation of HAMON

## 1. AIM

The Nation of Hamon is proposed as a joint engineering initiative to create new land in a region of multiple small islands with moderate climate. Hamon is bounded by a 300km radius centred at Latitude 9°33'7.61"N, Longitude 112°53'49.48"E. This proposal seeks to cast a new light on what has been a contentious region, but which has the potential to be a live demonstration of how diverse interests can work together cooperatively for the constructive benefit of all.

## 2. FOUNDING COUNTRIES

The Hamon six “Founding Countries” are Brunei, China, Malaysia, Philippines, Taiwan and Vietnam.

## 3. AMBITION

Hamon is a nation designed to provide extensive newly formed dry land and natural resources for the beneficial use of its inhabitants.

## 4. INDUSTRY

Hamon is a centre for education, wellness, communication, science, engineering, research, fishing, farming, mining, and tourism. History is not studied at Hamon education facilities as it is a newly created nation designed to be forward focussed and to develop its own history.

Specific industrial emphasis is placed on:

- Marine mining
- Land reclamation
- Power supply
- Carbon dioxide sequestration in sea water
- Aquaculture and fishing
- Desalination
- Crop production

## 5. MANAGEMENT

Hamon is under the direction of an Administrator assisted by staff officers “The Administration”. Each Founding Country appoints an Administrator, or their replacement for a seven year term. Successive Administrators are appointed in alphabetical order of Founding Nations starting with Brunei. Each Administrator has a predominant education in an engineering discipline to reflect the ongoing construction nature of Hamon. The Administrator controls the Administration and is responsible for its operations.

## 6. SOCIETY

Hamon is a non religious society (secular society) where rules of habitation include:

- Respect for extended families.
- Respect for the office of The Administration.
- Respect for human and property rights.
- The common language is Australian English.
- Rules of law may be proposed by the Administration from time to time. All laws are subject to ratification (or removal) by compulsory electronic polling of Hamon inhabitants requiring a 75% majority vote.
- All citizens carry dual nationality which permits the Administration to return unwelcome inhabitants to their second country of nationality, and to sell their assets.

## 7. LAND FORMATION

New land is constructed by importing or dredging clean fill material, as concurred by the Administration. A register is kept of the volume of material provided and by whom. An inherent value is placed on the fill and a “fill credit” entry established.

## 8. ECONOMY

- Hamon surface land is offered under freehold title sale by open auction, payable in gold bullion to the Administration.
- The gold bullion is safely stored in equal portions by each of the six Founding Countries.
- The bullion price paid is reduced by any “fill credit” the purchaser is entitled to.
- Existing long term inhabitants (families) are offered freehold title to the surface at their current place of residence, at no cost.
- The Administration retains ownership of the land subsurface and marine assets and licenses these assets for harvesting or extraction purposes.
- Local currency is created and backed by gold.
- The ratio of currency to gold is never more than 75%.
- Tax is paid monthly to the Administration on all “income” (less wages paid) received by Hamon inhabitants at a flat percentage rate - to be determined by the Administration.
- “Income” includes any revenue received from the sale of natural resources harvested from within the Hamon boundary.
- No other taxes are payable.

## 9. BORDER SECURITY

Surveillance is secured with a fleet of high speed catamaran water craft assisted by drone aircraft under the control of the Administration.

### Key Words

Hamon Nation, Hamon, Hassanal Bolkiah, Li Keqiang, Mohd Najib bin Abdul Razak, Benigno "Noynoy" Aquino III, President Ma, Truong Tân Sang, Julie Bishop, Brunei, China, Malaysia, Philippines, Taiwan, Vietnam, Marine mining, Desalination, Land reclamation, Carbon dioxide sequestration, Aquaculture, Founding Country, Administrator, secular society, extended families, electronic polling, dual nationality, dredging, fill credit, freehold title, gold bullion, catamaran, drone aircraft

Dear **Mr. Beatty**:

This is to acknowledge receipt of your letter dated July 6, 2015, addressed to His Excellency President Benigno S. Aquino III, the contents of which are duly noted.

Rest assured that the President is doing his best to steer this country towards peace and development.

Thank you and cordial regards.

Very truly yours,

**Atty. MARIA ESTRELLITA R. REYES, CESO IV**  
Acting Director IV -
